

IIS

franz-bonaparta.github.io

IIS

IIS (Internet Information Services) to wbudowany program, który zamienia Twój Windows Server w serwer stron internetowych (WWW). Dzięki niemu możesz wrzucić do specjalnego folderu na dysku pliki swojej strony (np. index.html), a każdy komputer w sieci będzie mógł ją wyświetlić w przeglądarce. Na egzaminie Twoim głównym zadaniem jest włączenie tej usługi oraz wskazanie folderu, w którym leży strona.

JAK TO WŁĄCZYĆ W SYSTEMIE?
